

Working student for research project proposals (m/f/d)

We are a young company specialised in project management of public-private research projects. As we anticipate new research projects/proposals over the next few months, we are looking for new members to join our team!

What your role would entail:

- proposal writing for Horizon Europe research project calls, primarily in but not restricted to CVD, immunology, rare diseases, application of AI/ML in healthcare etc.
- assist in the project management of ongoing research projects

What we expect:

- you are enrolled in an advanced study program, preferably medicine or master's/PhD in pharmacology, biology, or allied subjects
- first experience or at least a keen interest in research and writing of grant applications
- excellent writing and communication skills in English
- hands-on mentality, and good self-management

What you can expect:

- familiarity with the field of research proposals; immensely helpful for those planning to seek an academic career
- introduction and first experience in research project management
- relaxed working atmosphere in the heart of Haidhausen
- flexible working hours including possibility to work partly from home
- 14 € / hour (approx. 8 hours/week)
- start of work: Ideally December 2021 /January 2022

We look forward to your short application **by 22nd November 2021**.
